

International Master's Programme ›Biotechnology‹ Laboratory Work as an Admission Requirement

Personal Information

Family Name(s)	Given Name(s)
Application Number (uni-assist or myBTU)	E-Mail

Proof of practical laboratory work of at least 18 weeks¹

Please use the checkmarks to specify in which way you want to prove your practical laboratory experience (combinations are possible).

My previous lectures included the required practical laboratory work. Those lectures are clearly indicated in the Transcript(s) of Records. (You don't need to upload the ToR in this section of the application again!)

My lectures included the required practical laboratory work. Those lectures are not specifically indicated in the Transcript(s) of Records. Therefore I will upload the *respective* (not all!) module descriptions or *relevant excerpts* from coursebooks in this section of the application.

My bachelor's thesis, project work, scientific internship, preparation of publications etc. included the required practical laboratory work. The respective paper(s) were already uploaded in the thesis section of my application. (You don't need to upload the paper(s) in this section of the application again!)

My professional internship included the required practical laboratory work. I will upload a respective certificate or another official description in this section of the application.

Any other reliable proof to be specified here:

Please upload this filled form together with your application documents.

¹In previous years the required duration was 6 months. If you still have an old version of the requirements, please replace 6 months by 18 weeks.
