

Job Posting for Student Research Assistant @ DTI

The Chair of Decarbonization and Transformation of Industry (DTI) at the Brandenburg University of Technology Cottbus-Senftenberg (BTU) is looking for a student research assistant to support our research activities between October and December 2025.

Your task will be to independently carry out document research and coding work in the context of decarbonization processes in Latin America. Activities include:

- Identify and generate an overview of relevant policies, strategy papers and regulations in Latin America
- Literature research on state-of-the-art research in the context of decarbonization processes in Latin America
- Support evaluation and analysis of documents

Your profile:

- Currently pursuing a master's degree in transformation studies, environmental resource management, or related humanities or social science disciplines at the BTU
- Completed bachelor's degree with basic training in social science research
- Theoretical knowledge of qualitative social research; practical knowledge is desirable
- Very good English and Spanish skills
- Interest in working in an interdisciplinary environment
- Experience in text work and scientific work
- Initiative and ability to work independently

What we offer:

- An exciting and stimulating working atmosphere in an interdisciplinary context
- Insights into the research activities at DTI
- Remuneration in accordance with the regulations for student and research assistants in the state of Brandenburg
- Flexible working hours and the option of mobile office
- Family-friendly working conditions

Have we piqued your interest or do you need further information?

Then please send your questions or application with a motivation letter, CV, references, and a current certificate of enrolment in a single PDF file by 5th September 2025 to:

Email: Franziska.kusche@b-tu.de
