

HERITAGE MAKING AT HISTORIC SITES: PROCESSES, PRACTICES AND POLITICS

<https://gallery.plogmann.net/c/1x2x447x32832ximg.html>

“There is no such *thing* as heritage.” This provocative statement represents a point of view that has become dominant in the study of cultural heritage in recent decades. It suggests that a focus on historic buildings, sites and objects – that is, on *things* – is no longer sufficient to explain the power and significance of “heritage” in human society. Rather, it is necessary to understand heritage as a process and a practice: that is, as something that people *do* and *make* at historic sites – often for reasons that may be political in nature.

How and why heritage-making occurs are central questions to be addressed in the study project. Through readings and discussion, we will explore key concepts developed in the field of Heritage Studies, including “appropriation” and “construction”, “performance” and “mapping”, and “contestation”, “negotiation” and “co-authoring”, among others. We will then apply this theoretical framework to the analysis of selected heritage sites, looking closely at the processes and practices of heritage-making or “heritageization” operating there, as well as the needs, motives and politics behind them. At least two in-person site-visits to heritage sites are planned.

Participation in the weekly meetings is expected, and attendance at the site-visits is mandatory. Evaluation will be based on oral and written contributions generated in the context of group work.

Veranstaltungs-Nr.: 620403
 Art der Veranstaltung: SP
 Fachgebiet: Denkmalpflege
 Betreuung: Prof. Dr. habil. Johanna Blokker
 Teilnehmerzahl:
 1. Veranstaltung: 27.04.2023 15:30 LG2A 0.25.1
 Regeltermine: Do 15:30-17:00 A/B-Woche
 Weitere Informationen:
 (Link zu Moodle, etc.)
 Bemerkungen: 2 full-day site visits (TBD)

Angebot für:	Modul	LP
