

Call for applications

short term positions September 6th until December 31st 2016

research and documentation project

Detailed Map of Urban Structures of the Old Town of Aleppo

project Aleppo Archive in Exile, on behalf of the German Federal Foreign Office

The task is to elaborate a detailed map of the urban structures of the Old Town of Aleppo in the status 2012 including the ground figures of important and selected buildings on the basis of existing cadastral maps, historic maps, separated drawings of building ground figures and specific structures of the public spaces. Working scale will be 1 : 500. The final map should be printed in the scale 1 : 1.000. The map will be added with a 3D modelling. To elaborate the map many different sources have to be inspected, investigated and allocated. Old maps and drawings have to be digitalized with CAD and all sources will be integrated in one digital CAD map.

The work will be done in a team of scientific assistants, technical assistants and scientific student assistants (MA- or PhD students) or trainee. The team will work in cooperation with phd-students, who also work about Aleppo and in cooperation with two researchers from Stuttgart University. Christoph Wessling and Prof. Heinz Nagler will supervise the team.

Following positions are announced:

- A) Scientific Assistant, full time or part time 50% (13 TV-L), diploma or master in architecture, urban planning or comparable requested
main task: inspection, investigation and allocation of the diverse sources and CAD work for the Map
- B) Technical Assistant, full time or part time 50% (12 TV-L), bachelor, diploma or master in surveying, architecture, urban planning or comparable requested
main task: organisation of the Map and CAD work for the Map, digitalization of sources
- C) two Scientific Student Assistants part time 50% (80h / month, about 14,50 € / h), bachelor, diploma or master in surveying, architecture, urban planning or comparable requested
main task: digitalization of sources

For all position very good CAD skills are requested. Syrians who have a working permission for Germany are specifically ask to apply.

Please submit your application including application letter, CV and selected examples of previous works (not more than five pages) for best consideration until September 1st 2016 by email to Christoph Wessling. For any questions please also contact Christoph Wessling.
