

HOW TO ACQUIRE FUNDING FOR YOUR RESEARCH CAREER

FROM WRITING A SUCCESSFUL PROPOSAL TO SCIENTIFIC CAREER DEVELOPMENT

LECTURE SERIES FOR SCIENTISTS INTERESTED IN THIRD-PARTY FUNDING

The seminars show how to identify and analyse funding opportunities and point out major differences between the most important national and European funding programmes. Different types of project funding will be explained and strategies for developing a research funding plan will be discussed. We will demonstrate how grant proposals are reviewed and provide details on dos and don'ts in writing a proposal.
