

ESMT Master's in Management program in Berlin

A global management degree offering exceptional internship opportunities

Would you like to study management while living in the most exciting and dynamic European capital?
Then the **Master's in Management (MIM)** at ESMT Berlin is for you!

The ESMT MIM is a 22-month program developed in consultation with multi-national companies for recent graduates in a quantitative field. The program, taught entirely in English, is designed to enhance the analytical skills developed during your previous studies and combine them in an applied management setting.

What makes the MIM unique?

- Up to 10 months of integrated internships and projects in international corporations or Berlin start-ups
- [Internship opportunities](#) offered by companies such as **Allianz, Axel Springer, Barclays, BMW, Bosch, Deutsche Bank, Deutsche Post DHL, E.ON, EY, Gazprom, McKinsey, Siemens and ThyssenKrupp**
- Current MIM students are interning at (examples): Bosch - Product Manager; Citi Bank - Investment Banking & Placement Analyst; Daimler - Risk Manager; KPMG - Deal Advisor; Zalando (Berlin start-up) - Analytics Department
- Current internships are taking place in countries such as Germany, Japan, Turkey, France, Switzerland, Kenya, and South Korea
- Students work on a two-month Social Impact Project in a non-profit or social venture
- Foreign language classes for all students
- Second year specializations include: finance, value chain management (marketing and supply chain) or innovation and technology management

The MIM program is designed for:

- Recent graduates with a background in analytical subjects (science, technology, engineering, finance, economics, mathematics etc.); **OR**
- Students with any first degree displaying strong interests and abilities in quantitative subjects
- [Scholarships](#) are available for students with exceptional academic merit covering up to EUR 10,000
