

# INSURANCE DECLARATION

for the internship abroad within the EU's Programme „Erasmus+“

**The following insurances that apply abroad are obligatory for your stay abroad for internship purposes: HEALTH, ACCIDENT and LIABILITY INSURANCE.**

Please read the following instructions carefully and ensure that you have adequate insurance coverage.

## 1. NOTES ON HEALTH INSURANCE

If you have statutory health insurance, your German Health Insurance will normally cover basic care during your stay abroad via the European Health Insurance Card (usually found on the back of your health insurance card).

Please note that your health insurance must also cover pandemic cases.

**Attention:** Coverage via the European Insurance card or private insurance may not be sufficient, especially in the case of higher treatment costs, special medical interventions or in cases if medically necessary return transport. The statutory German Health Insurance only covers the treatments costs incurred in Germany for any treatment. Higher treatment costs would have to be borne by you. Furthermore, you would be forced to pay in advance if the facility providing treatment is not a contact hospital of your German Health Insurance. Therefore, additionally private health insurance abroad is compulsory for the internship period.

## 2. NOTES ON ACCIDENT INSURANCE

Accident insurance is sometimes covered by the receiving institution/enterprise (see ex-ante form).

If you are not insured against accidents at work by your employer, you must ensure that you have sufficient insurance coverage yourself.

**Attention:** The difference between health insurance and accident insurance is that your health insurance covers initial medical care in the event of an accident, but does not cover consequential damages that may result from accidents (e. g. disability). In order to be adequately covered for consequential damages, accident insurance is indispensable. When taking out accident insurance, it is important to make sure that it is NOT a travel insurance and that it covers private accidents and accidents at the workplace for the entire duration of the internship.

## 3. NOTES ON LIABILITY INSURANCE

Liability insurance is sometimes covered by the receiving institution/enterprise (see ex-ante form).

If you are not covered by your employer's liability insurance at the workplace, you must ensure that you have sufficient insurance coverage yourself.

**Attention:** You need a liability insurance that covers damage caused by you at the workplace. A purely private liability insurance does not cover damages at the workplace.

## **EASY ALTERNATIVE => DAAD GROUP INSURANCE PACKAGE**

The DAAD insurance office offers **combined health, accident and liability insurance**, which also covers you in the event of a pandemic. Comprehensive information see [DAAD-Gruppenversicherung](#).
