

Peter the Great St. Petersburg Polytechnic University (SPbPU), Russian Federation

Peter the Great St. Petersburg Polytechnic University (SPbPU) gained the status “National Research University” which promotes a new type of Research University, integrates multidisciplinary R&D activities and advances technologies. In 2007 SPbPU won the «Innovation University» award which is financed by the framework of the National Project. It has partnerships with more than 120 research institutes among them: TEMPUS/TACIS, BISTRO, COPERNICUS, INTAS, NORDIC. Additionally SPbPU is collaborating with international research centers, industrial companies and working on more than 20 international joint research and education centers with leading foreign companies such as Microsoft, Motorola, Siemens, Philips, Samsung.

Description of the Electrical Engineering Department

The Department of Electrical Engineering is one of the oldest departments of the SPbPU. At present faculty train highly qualified specialists, majoring in electric power production, transfer and distribution, as well as electrical engineering and electromechanical equipment production for electric power plants, electricity supply networks and electro-technics. The graduates find employment in leading plants and facilities in St. Petersburg and the North-West Region of Russia as well as the biggest electro-engineering companies like ABB, Siemens, Raychem, GE and others all around the world.

The faculty of Power Engineering was founded in 1934 and today is one of the biggest institutions training highly qualified specialists in the sphere of heat-and-power engineering, power and transport engineering industry. The graduates of the faculty are occupied in designing, producing and running state-of-the-art hi-tech machinery and hardware, conducting research as well as managing labor and innovation activities in enterprises of different structure and different facilities.

Services for International Students

- 1) Each student coming to SPbPU is invited to be registered in the University hostel
- 2) Campus Tours

Culture Program and Leisure Activities

Students have a wonderful opportunity to try out new activities and sports in a friendly environment or to develop their existing skills.

Concerts, competitions, dances, and festivals make student life interesting and exciting. It has become a tradition to have clubs in the Polytechnic, which makes it possible for students to realize their creative ideas and thoughts by taking part in different activities, organization of parties, trips, excursions.
