### The nomination is made by:

(Students and lecturers of the BTU both as individuals and as student body or rather study- or teaching-committees of the faculties are entitled to nominate candidates)

**Name:** (Title, first and last name)

**E-Mail:**

### Details of the nominated module:

**Name of the module:** (if possible with module number)

[Click here to enter text.](#)

**Semester in which the module (last) held:**

Select an item.

### Information on lecturers:

**Name:** (Title, first and last name)

**Telephone:**

**E-Mail:**

**Faculty:**

Select an item.

**The lecturer is informed about the nomination:**

### Informative rationale / criteria of the nomination

**New** Closing date: **20 December 2024!** Please send the nomination via the completed form by e-mail to the Department of Teaching and Learning, Unit Study Programme Development and Quality Management ([lehrpreise@b-tu.de](mailto:lehrpreise@b-tu.de)).

The module is characterized in particular by a **competence orientation in studying and teaching** and thus create didactically sound innovative and forward-looking learning occasions for the students to actively acquire competencies.

The module is characterized by a didactically meaningful design and is perfectly integrated into the study programme concept – this is demonstrated by the following facts:

- The **forms of teaching and learning used** support the acquisition of cognitive competences by students through purposeful repetition or demonstration of connections in order to ensure that the new knowledge to be acquired is compatible with students' prior knowledge.

Click here to enter text.

- In the module, **learning occasions** (with tasks in situations of application and performance) are arranged in such a way that students can cope with them as independently as possible.

Click here to enter text.

- In addition to cognitive competences, the module also addresses **interdisciplinary competences** such as cooperation, communication and critical thinking and also resilience.
