Learning Outcome	<p>This course is designed for learners at intermediate level or above who need to develop their reading skills for study purposes. Placing an emphasis not only on extensive reading skills development, but also on continued language development through four main areas: understanding the text, critical thinking, using the next and language focus on lexis typical for academic texts.</p> <p>Students will be introduced to basic reading skills, as well as theme based texts from a variety of disciplines that aim to extend the basic skills. Students will be encouraged to reflect on their current reading strategies, by doing a variety of task-based problem solving activities. By exposure to the ideas of others, students will be able to refine and improve their reading strategies.</p>
