

Brandenburg University of Technology Cottbus-Senftenberg (BTU) brings together cutting-edge research and technology transfer at an international level, engendering an interdisciplinary innovation network and a centre of excellence for science and technology. BTU and its respected partners together form the Lusatia Science Network – an alliance of research institutions joining forces in a bid to develop the strengths of Cottbus-Senftenberg as a science and research hub and to increase its visibility. BTU is shaping the future through innovative research and new approaches to teaching and learning, contributing to the construct surrounding the major subjects of relevance for the future and transformation processes by way of scientific findings and practice-oriented solutions. It bundles its strengths in teaching and research across institutes and faculties in broad strokes spanning four profiles – “Energy Transition and Decarbonisation”, “Health and Life Sciences”, “Global Change and Transformation Processes” and “Artificial Intelligence and Sensor Technology”.

BTU guarantees its students in Cottbus and Senftenberg a challenging education, individual support and the opportunity to learn from and with each other in a spirit of curiosity and openness. Offering an inspiring atmosphere of learning and research and fostering dialogue and democratic cooperation between all, BTU is facilitating innovation and progress in Lusatia with pride in the diversity of its teaching staff and students.

The **Faculty of Human Sciences** is seeking to fill the following post:

## **PROFESSORSHIP (W2) in Midwifery II**

at the earliest possible date.

The professorship is located at the Institute of Health (IfG) at the Senftenberg campus of BTU Cottbus-Senftenberg. The IfG (<https://www.b-tu.de/institut-gesundheit>) was founded in 2016 at the Senftenberg campus at a time of structural change in the region, and its objective is to play a leading role in health science research and in the establishment of academic training in health-care professions. We are looking to recruit someone with experience in teaching and research in the field of midwifery. We expect the successful candidate to be willing to network with the main fields of research of the Faculty, to adopt an interdisciplinary approach to the job, to assist with efforts to increase professional standards in the health-care occupations, to advance the IfG in its development, and to be committed to working with academic autonomy in the role.

We are looking for a person with an excellent track record in research, teaching and practice who will help mould and shape the new midwifery degree course in its formation, take charge of the subject in research and teaching, and assume the duties of professor in the degree course and in the interdisciplinary modules of the Institute of Health. We are looking for an individual with a strong background in science who has experience in research in the field of midwifery and

Die BTU trägt das Gütesiegel des Deutschen Hochschulverbandes (DHV). Sie wird damit für ihre fairen und transparenten Verhandlungen zur Berufung von neuen Professorinnen und Professoren ausgezeichnet.

can demonstrate this through the acquisition of third-party funding and publications. The successful candidate will be expected to plan and deliver lectures and seminars as required in the scope of the contractual teaching duties.

The professorship remit includes the aforementioned subjects in research and teaching in the degree courses at the IfG and in other courses of study at BTU as well as teaching duties in the bachelor's and master's degree courses in German and English. A successful candidate with insufficient command of the German language must be prepared to learn German quickly in order to be able to participate in the management of the IfG and of the Faculty, to sit on university and non-university committees, and to teach bachelor's degree courses in German.

### **Requirements profile:**

The following qualifications are required of the future professor in this post under section 43 (1) of the Brandenburg law governing higher education (Brandenburgisches Hochschulgesetz - BbgHG) and section 20 of the German law governing midwifery training and practice (Hebammengesetz - HebG):

- degree in midwifery, nursing studies, psychology, nursing education, health-care science or a comparable university degree;
- permission to use the professional title of midwife;
- teaching skills;
- aptitude for academic and scientific research, normally demonstrated by the quality of a doctorate;
- notable achievements in the application or development of scientific findings and methods in at least three years of professional practice, at least two years of which must have been spent outside the higher education sector; and
- additional academic achievements.

The ideal candidate will also have experience in raising external funding and in carrying out projects funded by third parties. Research work conducted by the candidate in the field of midwifery in health-care settings will have been published in relevant national and international journals. The research subjects covered should be relevant to the German Research Foundation (Deutsche Forschungsgemeinschaft - DFG) or comparable international research funding institutions.

The university teaching experience of the successful candidate will provide an excellent foundation for teaching the subject in this vacant position. The candidate will have the ability to teach at all levels of the curriculum from bachelor's degree to doctorate, to supervise theses, to develop the next generation of professionals, and to encourage growth in the field of midwifery in teaching and research, which is still in its infancy. The successful candidate will bring knowledge and experience conducive to working with academic autonomy and to raising the profile of the Faculty.

Die BTU trägt das Gütesiegel des Deutschen Hochschulverbandes (DHV). Sie wird damit für ihre fairen und transparenten Verhandlungen zur Berufung von neuen Professorinnen und Professoren ausgezeichnet.

### What we offer:

- fair and transparent appointment negotiations;
- attractive working conditions in a city offering a high quality of life and situated relatively close to Berlin, Dresden and Leipzig;
- location of dynamic growth in research;
- assistance with moving to the area in the vicinity of the place of work;
- careers advice for trailing spouses and guidance in family relocation; and
- attractive salary with negotiable incentive on appointment.

Further duties and public sector employment provisions are set out in section 44 of the Brandenburg law governing higher education (Brandenburgisches Hochschulgesetz - BbgHG) in conjunction with sections 3 and 45 of the same law.

The Vice-Dean of the Faculty, Prof. Dr. Christian Kopkow, will be happy to provide you with further information (tel.: +49 (0)3573 / 85 741; email: [christian.kopkow@b-tu.de](mailto:christian.kopkow@b-tu.de)).

BTU is committed to equal opportunities and diversity, striving for a balance of gender in all employee groups and giving priority to people with severe disabilities or equivalent status where there is no difference in suitability and qualifications.

Information about the appointment management process, including the legal basis and the status of ongoing appointment procedures, can be found under the following link: <https://www.b-tu.de/universitaet/karriere/berufungsmanagement>.

Please send your application along with proof of your qualifications, a table showing your career progression, a list of publications and evidence of your teaching skills by email, all summarised in one PDF file no bigger than 7 MB, by no later than **05.08.2024** to:
