Shape the future with us!

The Brandenburg University of Technology (BTU) Cottbus-Senftenberg is a young university that is actively shaping the structural change in Lusatia towards a lignite phase-out and scientifically supporting transformation processes. Be there when practically relevant solutions are developed for shaping major issues - towards a sustainable and climate-friendly future. Because: The region will be one of the most exciting real laboratories in Germany, from which groundbreaking development impulses are to emanate. How? Through innovative research, interdisciplinary clusters, cooperation with science and industry, dialogue with society and the promotion of young scientists.

The Faculty of Business, Law and Social Science invites applications for a

PROFESSORSHIP
General Business Administration, in particular Investment and Finance (W3)

commencing at the earliest opportunity.

We are looking for a scientist with a proven track record of internationally visible research in the field of entrepreneurial finance. In research, the future position holder is expected to have a special focus on the field of entrepreneurial finance. Of particular interest are research questions addressing financing problems and modern financing instruments in the context of innovation and transformation processes or technology-oriented new and young companies. Furthermore, a reference to the financing of sustainable R&D projects or sustainable entrepreneurship is desirable.

A distinctive research profile is required, in which questions in the field of appointment are analysed on a theoretical and/or empirical basis. Applicants are expected to have outstanding scientific achievements, proven by publications in high-ranking international journals as well as by experience in the acquisition of third-party funding and in the realisation of third-party funded projects. Active involvement in international research networks is an advantage. In addition to the ability to connect to the research foci of the faculty, a recognizable potential for interdisciplinary collaboration within the research fields of the university is expected. Your research topics should be relevant to the DFG or comparable national and international research funding bodies.

The professorship is located in the Institute of Economic Sciences. The Institute of Economics is the main provider of the degree programs in Business Administration and Industrial Engineering and contributes to a large number of other degree programs. Your university teaching experience will enable you to provide excellent teaching for the subject area to be filled. A willingness to offer courses in German and English as well as a high level of commitment to academic teaching is required.

A strong commitment to academic self-government and strong teamwork skills are also expected.

If there is no sufficient knowledge of German, the willingness to learn the German language as soon as possible is required, which ensures the cooperation in the management of the institute, the faculty and in university and non-university committees as well as the teaching of the Bachelor's degree programmes in German.

Your profile:

As a future professor, you can provide evidence of the following requirements in accordance with § 41 Para. 1 No. 1 to 4a Brandenburg Higher Education Act (BbgHG):

- a completed university degree,
- pedagogical aptitude,
- a special aptitude for academic work, as a rule through the outstanding quality of a doctorate in a field relevant to the position to be filled, and

www.b-tu.de/stellenangebote
• a habilitation or additional academic achievements as an equivalent.

Furthermore, you have experience in the acquisition of third-party funding and in the implementation of third-party funded projects. Your research topics should be relevant to the DFG or comparable international research funding institutions. Your university teaching experience enables excellent teaching for the subject area to be filled here. You have the ability to teach at all curricular levels from bachelor's to doctorate, to supervise theses and to support young academics. Your knowledge and experience enable you to participate in academic self-administration and in raising the profile of the faculty.

We offer:

• fair and transparent appointment negotiations,
• attractive working conditions in a city with a high quality of life and in relative proximity to Berlin, Dresden and Leipzig,
• a dynamically developing research location,
• support in relocating to the immediate vicinity of your place of employment,
• comprehensive advice in the dual-career service and in the area of family orientation, and
• an attractive salary with a negotiable appointment benefit.

Other duties result from the requirements set by § 42 BbgHG in conjunction with § 3 BbgHG.

For further information please contact Prof. Dr. oec. habil. Jan Schnellenbach, Tel. +49 (0)355 / 69 2914 / email: jan.schnellenbach@b-tu.de.

Please refer to §§ 41 paragraph 1 No 1 – 4a and 43 BbgHG for prerequisites and conditions of employment.

BTU is committed to equal opportunities and diversity and strives for a balanced gender ratio in all employee groups. Persons with a severe disability and their equals are given priority in the case of equal suitability.

As a family-oriented University, BTU offers a Dual Career Service.

Information on appointment management including the legal basis as well as the status of ongoing appointment procedures can be found at: https://www.b-tu.de/en/university/career/professional-appointment-management.

The application, including academic certificates, curriculum vitae, a list of publications, as well as proof of teaching experience, should be sent by e-mail in a single pdf file with a max. 7 MB until 25.08.2023 to:

Email: fakultaet5+bewerbungen@b-tu.de
