The BTU is a young university that is actively helping to shape the structural change in Lusatia to phase out lignite and is providing scientific support for transformation processes in many ways. In the coming decades, the region will be one of the most exciting real laboratories in Germany, from which groundbreaking development impulses are to emanate. Employment at the BTU therefore promises more than ever participation in development processes towards a sustainable and climate-friendly future.

The Faculty of Architecture, Civil Engineering and Urban Planning invites applications for a

**PROFESSORSHIP**

*Design and Building Science (W2)*

with a research-related focus to be filled as soon as possible.

We are seeking an outstanding personality in the field of architecture who represents the field of Design and Building science in research and teaching in the bachelor's and master's degree program and has relevant theoretical and practical experience. The excellent qualification as a designing architect is to be proven by successful competition works as well as recognized realized buildings.

Research tasks include the topics of experimental planning and design in the field of tension between design - use - sustainability. Active interdisciplinary project work across faculty boundaries is expected. Beyond the excellent qualification as a designing architect, we are looking for a candidate who combine research fields in the represented discipline with active and successful third-party funding and interdisciplinary cooperation within and outside the faculty. The research topics should be relevant to the DFG or comparable international research funding agencies. Profound knowledge in acquisition of third-party funding as well as in the implementation of third-party funded projects is expected.

In addition, the professorship is expected to work with a high level of motivation in the self-administration and architecture program. Accepting responsibility to promote further qualifications of employees, a willingness to cooperate in internal administrative duties and enhancement of the faculty profile is assumed. Teaching duties shall be performed in all levels of the Bachelor's and Master's degree courses within the faculty in the form of project-based studies and specialized seminars. Profound teaching experience and the ability to teach in English, are prerequisites. It is possible to fill the professorship on a half-time basis with two persons, each representing a different focus of the advertised field.

For further information please contact Prof. Karen Eisenloffel, Tel. +49 (0)355 69-4115 / email: eisenlof@b-tu.de.

Other duties result from the requirements set by § 42 Brandenburgisches Hochschulgesetz (Higher Education Act of the State of Brandenburg - BbgHG) in conjunction with § 3 BbgHG. Please refer to §§ 41 paragraph 1 no. 1 - 4a and 43 BbgHG for Prerequisites and conditions of employment.

BTU Cottbus-Senftenberg is committed to equal opportunities and diversity and strives for a balanced gender ratio in all employee groups. Person with a severe disability and their equals are given priority in the case of equal suitability. As a family-oriented University, BTU offers a Dual-Career-Services.

The application, including academic certificates, curriculum vitae, a list of publications, as well 25.02.2022 to:

Dean of the Faculty of Architecture, Civil Engineering and Urban Planning
BTU Cottbus - Senftenberg, Postfach 101344, 03013 Cottbus
