

The **Brandenburg University of Technology (BTU) Cottbus–Senftenberg** is a research-oriented university that combines its role as the central university of Lusatia with a strong international perspective. It offers a combination of basic and application-oriented research with a focus on the environment, energy, materials, construction, health, and information and communication technology.

The **Faculty of Social Work, Health Care and Music** invites applications for a

Professorship Midwifery II (w2)

commencing at the earliest opportunity.

The Institute of Health at BTU Cottbus-Senftenberg was founded in 2016. It consists of the departments of educational sciences and vocational pedagogy in the health professions, health sciences, educational psychology in health professions, nursing science, nursing science and nursing didactics, and therapy sciences. The aim of the institute is to take on a leading role in health science research and in establishing academic education in the health professions at the Senftenberg site against the background of structural change in the region. As part of the further expansion of the range of courses offered at the Senftenberg campus, it is planned to introduce a primary qualifying midwifery course in the winter semester of 2021.

We are looking for a midwife or a maternity nurse who has excellent work in research, teaching and practice and who will help shape the development of the newly founded midwifery degree program, represent the field in research and teaching and take over teaching in the degree program and in the interdisciplinary modules of the Institute of Health at professorial level.

We are looking for a personality who has experience in research in the field of midwifery and can prove this through third-party funding and publications. The planning and implementation of courses within the framework of the specified teaching obligations are required. The willingness to network with research foci of the faculty, to interdisciplinary cooperation, to contribute to the professionalization of the health professions, to the further development of the Institute for Health as well as the committed cooperation in the academic self-administration are expected.

As the future holder of the position, you will also have the following employment requirements:

- a completed diploma or master's degree in midwifery, nursing science, psychology, nursing pedagogy, health sciences or a comparable course of study
- permission to use the professional title of midwife
- a special aptitude for scientific work, as a rule evidenced by a qualified doctorate
- proof of pedagogical aptitude
- teaching and research activities in the field of midwifery as well as relevant publications
- willingness to further develop the field of teaching and research in midwifery science
- special achievements in the application or development of scientific knowledge and methods in a professional practice of at least three years, of which at least two years must have been spent outside the university sector.

For the application-based concentration, the teaching load is 18 course hours. Lectures are primarily to be held in German, fluency in English is expected. Experience in the acquisition and realization of third-party funded projects is expected. Fields of research should be relevant for the DFG (German Research Foundation) or similar international research funding organisations.

For further information, please contact Dr. Franziska Rosenlöcher, Tel. +49 (0)3573 85-290 / email: Franziska.Rosenloecher@b-tu.de.

Other duties result from the requirements set by § 42 Brandenburgisches Hochschulgesetz (Higher Education Act of the State of Brandenburg - BbgHG) in conjunction with § 3 BbgHG.

Die BTU trägt das Gütesiegel des Deutschen Hochschulverbandes (DHV). Sie wird damit für ihre fairen und transparenten Verhandlungen zur Berufung von neuen Professorinnen und Professoren ausgezeichnet.

Please refer to §§ 41 paragraph 1 no. 1 - 3 and 4b and 43 BbgHG for Prerequisites and conditions of employment.

BTU Cottbus-Senftenberg is committed to equal opportunities and diversity and strives for a balanced gender ratio in all employee groups. Person with a severe disability and their equals are given priority in the case of equal suitability.
As a family-oriented University, BTU offers a Dual-Career-Services.

The application, including academic certificates, curriculum vitae, a list of publications, as well as proof of teaching experience, should be sent by e-mail in a single pdf file with a max. 7 MB until **23.09.2022** to:

**Dean of the Faculty of Social Work, Health Care and Music
