

The **Brandenburg University of Technology (BTU) Cottbus-Senftenberg** is a young university that is actively helping to shape the structural change in Lusatia to phase out lignite and is providing scientific support for transformation processes in many ways. In the coming decades, the region will be one of the most exciting real laboratories in Germany, from which groundbreaking development impulses are to emanate. Employment at the BTU therefore promises more than ever participation in development processes towards a sustainable and climate-friendly future.

The **Faculty of Social Work, Health Care and Music** invites applications for a

Professorship Nursing Science (w2)

commencing at the earliest opportunity.

The professorship is located at the Institute for Health (IfG) at the Senftenberg campus of the BTU Cottbus-Senftenberg. The IfG (<https://www.b-tu.de/institut-gesundheit>) was founded in 2016 at the Senftenberg campus during a programme of structural change in the region and endeavours to play a leading role in health science research and in establishing academic education for health professions. We are seeking someone with experience in teaching and research in the field of nursing science. What is expected: willingness to network with the main research areas of the faculty, to collaborate in an interdisciplinary manner, to participate in the professionalisation of the healthcare professions, to further develop the IfG, and to work with commitment in academic self-administration.

The person to occupy the position should have theoretical and practical skills in the field they are appointed. This especially includes research, teaching, and advanced education be geared towards the requirements of health care and to scientific findings in nursing science and related sciences. Assignments should primarily be performed at the bachelor's degree in nursing science level, as well as in the master's degree in vocational education for the health professions and in other planned master's degree programmes at the Institute for Health. The professorship shall also be associated with managing a separate work area at the university, the management of the bachelor's degree in nursing science, and participation in the further establishment of academically trained nursing staff in the state of Brandenburg. In addition, collaborations with health care institutions must also be further developed and maintained. The position appointee shall also contribute, in particular through research activities and the promotion of young scientists, to the scientific profiling of the institute and further development of the discipline of nursing science.

The candidate for the position should possess the following:

- a completed diploma or master's degree in nursing science, or a comparable course of study,
- completed vocational training in the nursing profession,
- a special aptitude towards academic work, which must normally be proven in the form of a completed doctorate,
- evidence of an aptitude and suitability for teaching,
- special achievements in the application or development of scientific knowledge and methods in at least three years of professional practice, of which at least two years must have been spent outside of the university sector
- teaching and research activities in the field of nursing science as well as publications in relevant and recognised specialist journals,
- a willingness to further develop the educational and research profile of the Institute for Health.

Lectures are primarily to be held in German, fluency in English is expected. Experience in the acquisition and realisation of third-party funded projects is expected. Fields of research should be relevant for the DFG (German Research Foundation) or similar international research funding organisations.

For further information, please contact Prof. Dr. Christian Kopkow, Tel. +49 (0)3573 85-741 / email: christian.kopkow@b-tu.de.

Die BTU trägt das Gütesiegel des Deutschen Hochschulverbandes (DHV). Sie wird damit für ihre fairen und transparenten Verhandlungen zur Berufung von neuen Professorinnen und Professoren ausgezeichnet.

Other duties result from the requirements set by § 42 Brandenburgisches Hochschulgesetz (Higher Education Act of the State of Brandenburg - BbgHG) in conjunction with § 3 BbgHG. Please refer to §§ 41 paragraph 1 no. 1 - 3 and 4b plus 43 BbgHG for prerequisites and conditions of employment.

BTU Cottbus-Senftenberg is committed to equal opportunities and diversity and strives for a balanced gender ratio in all employee groups. Person with a severe disability and their equals are given priority in the case of equal suitability.
As a family-oriented University, BTU offers a Dual-Career-Services.

The application, including academic certificates, curriculum vitae, a list of publications, as well as proof of teaching experience, should be sent by e-mail in a single pdf file with a max. 7 MB until **02.02.2023** to:

Dean of the Faculty of Social Work, Health Care and Music
