

The **BTU** is a young university that is actively helping to shape the structural change in Lusatia to phase out lignite and is providing scientific support for transformation processes in many ways. In the coming decades, the region will be one of the most exciting real laboratories in Germany, from which groundbreaking development impulses are to emanate. Employment at the BTU therefore promises more than ever participation in development processes towards a sustainable and climate-friendly future.

The **Faculty of Architecture, Civil Engineering and Urban Planning** of Brandenburg University of Technology (BTU) Cottbus – Senftenberg, invites applications for a

PROFESSORSHIP

Urban Design and Urban Studies (w2)

with a research-oriented focus to be appointed at the earliest opportunity.

We are seeking applicants with a proven track record in practice and theory with a university degree in the field of architecture, urban design, urban planning, urban studies or a related discipline in the field of interdisciplinary urban development or urban research. Relevant practical experience in the field of urban design and town planning and / or further academic qualifications in an international context are also expected.

The future holder of the position should represent the subject area "Urban Design and Urban Studies" in the study programs of the Institute for Urban Planning and Faculty 6, especially in the English-language master's program. The applicant is expected to be able to anchor the areas of urban design and urban studies at the interface between creative urban design and interdisciplinary urban research in an international context.

In addition to teaching scientific, planning and design skills, the urban and rural challenges of transformation processes towards climate-optimised and resource-saving urban development must be addressed from an international perspective. This also needs to be presented in the independent research profile of the future position holder.

Experience in the acquisition of third-party funding as well as in the implementation of third-party funded research projects is expected. The research topics should be relevant for the DFG (Deutsche Forschungsgemeinschaft) or comparable international research funding institutions.

A high level of motivation for working in self-administration and a strong commitment to the work in the Institute for Urban Planning are expected. Taking responsibility for the qualification of academic staff and for raising the profile of the faculty is a prerequisite.

There is also the possibility of sharing the professorship position between two people who each represent different focal points of this subject area.

For further information please contact Prof. Anna Lundqvist, Tel. +49 (0)355 69-3048 / email: anna.lundqvist@b-tu.de.

Other duties result from the requirements set by § 42 Brandenburgisches Hochschulgesetz (Higher Education Act of the State of Brandenburg - BbgHG) in conjunction with § 3 BbgHG.

Please refer to §§ 41 paragraph 1 no. 1 - 4a and 43 BbgHG for Prerequisites and conditions of employment.

BTU Cottbus-Senftenberg is committed to equal opportunities and diversity and strives for a balanced gender ratio in all employee groups. Person with a severe disability and their equals are given priority in the case of equal suitability.

As a family-oriented University, BTU offers a Dual-Career-Services.

Die BTU trägt das Gütesiegel des Deutschen Hochschulverbandes (DHV). Sie wird damit für ihre fairen und transparenten Verhandlungen zur Berufung von neuen Professorinnen und Professoren ausgezeichnet.

The application, including academic certificates, curriculum vitae, a list of publications, as well as proof of teaching experience, should be sent by e-mail in a single pdf file with a max. 7 MB until **28.01.2022** to:

**Dean of the Faculty of Architecture, Civil Engineering and Urban Planning
