### How and where?

online – with your validated BTU account checking into the Online Portal:

A screenshot of the BTU Online Portal website. The page has a blue header with 'Students Corner' and 'Documentations' tabs. Below the header, it says 'You are here: Home'. The main content area is titled 'BTU Cottbus - Senftenberg' and 'Online Portal'. A message states: 'Please be aware that the Online Portal is not accessible between 11:20 p.m. and midnight on a daily basis due to maintenance activities!'. There is a button labeled 'Anmelden über zentralen Authentifizierungsdienst'. A pink arrow points from a pink-bordered box containing the text 'There you need your BTU account!' to the login button. On the left side of the main content area, there is a small image of a student sitting on the ground with a laptop, and a hand holding a whiteboard with mathematical formulas. The footer contains links for 'About' and 'Privacy Policy', and mentions 'QIS and LSF are products of HIS: eG'.

# The **BTU-account** is so much more!

**Your BTU-account is enormously important.**

You need him in order to:

- Register to and sign off of the module examinations / opening of certificates
- Log into the Wireless LAN of the BTU
- Central mailing box
  - If we write you emails, we use your BTU account address
  - Therefor: Please check your inbox regularly (you can fast forward your mails to your personal inbox)
- You can see all mandatory adjustments and change your password and mail modulations under: [www.b-tu.de](http://www.b-tu.de) > account
- You can find your BTU-Webmail-Portal under: [webmail.b-tu.de/](http://webmail.b-tu.de/)

### Registration and Deregistration from Module Examinations

#### Information – Please read carefully!

The binding registration and deregistration deadlines for module examinations are a result of the [current module description](#) in conjunction with the [semester schedule](#) for the particular semester.

- Registration for modules with a limited number of participants: two weeks prior to the commencement of lectures.
- Registration for modules without a limited number of participants: 1st to 3rd week of lectures
- Registration dependent on the composition of the module examination (Final Module Examination, Module with Continuous Assessment)

Should an online registration or deregistration not be possible during the respective deadlines, please contact the registrar's office during the consultation hours. Registrations and deregistration of additional modules or theses should generally be done at the registrar's office.

**Accepting these indications by clicking allows you to proceed to your desired operations.**

### Current Module Description

Functions: [PRINTABLE VERSION](#) | [PDF](#)

Module Number:	11109
Module Title:	Mathematik W-1 Mathematics W-1
Department:	Faculty 1 - Mathematics, Computer Science, Physics, Electrical Engineering and Information Technology
Responsible Staff Member:	<ul style="list-style-type: none"><li>• Prof. Dr. rer. nat. habil. Wunderlich, Ralf</li><li>• Prof. Dr. rer. nat. Hartmann, Carsten</li></ul>
Language of Teaching / Examination:	German
Duration:	1 semester
Frequency of Offer:	Every winter semester
Credits:	6
Learning Outcome:	The students acquire knowledge in mathematical methods for solving simple problems arising in economics and engineering. Basic concepts of linear algebra and an introduction to calculus are imparted. Students become familiar with handling of mathematical objects and structures (such as number, set, matrix, vector, mapping) and in logical inference. Exercise courses and home works will lead to sound skills by autonomously solving simple problems. Students will be qualified for solving problems and for the assessment of available mathematical methods. They achieve skills for the abstraction and for a mathematically correct presentation of approaches. Main topics of the first semester are linear models including simultaneous linear equations. Introducing the concept of
